

## **Instructions for GASSSS Presentations**

If you have participated in the GASSSS program as either a GA employee or as a recipient, you are welcome and encouraged to write up your role in the GASSSS activity. The GA employee can write about what they did and how it was received; they could also write up the details of the activity so that it could be replicated by others. This will be helpful and will act as a role model for other GA participants. Teachers and students can also write a description of their roles in the activity and how they benefited from the GASSSS program.

If you choose to write about the GASSSS program, send your contributions to Larry Woolf at [Lawrence.Woolf@ga-asi.com](mailto:Lawrence.Woolf@ga-asi.com).

If you are a GA employee, include your name, the name of the recipient of the activity (teacher, affiliation or school, and location), and the date the activity was performed.

If you are the recipient of the GASSSS program, include your name, the name of the GA employee, your affiliation or school, and the date of the activity.
