

It all starts with literacy.

Volunteer to tutor a first or second grade student, online, with TutorMate. **Join our team of volunteers and be one of thousands of busy professionals who volunteer 30 minutes of their time each week to make a direct impact in the lives of students from under-resourced schools.**

A child who can read is set up for life. Not just because they do better at school and have better job prospects, but because they are happier and more confident.

The 2013 National Assessment of Education Progress (NAEP) reading test results demonstrate that **65% of all U.S. fourth graders scored "below proficient,"** which means that they are not reading at grade level.
